Mobile Cancer Bus Diagnostic Clinic

Aiming at overcoming the hurdle of transportation that comes in the way of medical treatment, HCG Foundation, in association with Infosys Foundation, launched a mobile cancer in 2014; Staffed with a doctor, nurse and paramedical staff (around five in all), the clinic is equipped with mammography, x-ray system, ultrasound system, pathology and lab. The mobile cancer clinic is deployed in Gulbarga to cater to districts in north Karnataka. The clinic is a boon to people in the remote areas. The mobile clinic creates accessibility to advanced cancer screening and early diagnosis. It is a fully sufficient bus with advanced technology which helps in creating awareness by disseminating information about cancer through a television fitted inside the mobile clinic with provision to beam images onto a screen outside.
