

HCG FOUNDATION

ANNUAL REPORT

2022 - 2023

HCG
FOUNDATION
Lasting Inspirations

MESSAGE FROM SENIOR MANAGER: FEROS KHAN

The HCG Foundation team has worked hard in the past financial year to achieve its goal and purpose. The past 3 years have been difficult for the Foundation due to the pandemic and its after effect on the economy. In the last year, however, we were able personally interact and revive group activities with our patients. The goal this year is to build a strong network and expand our wings to Indian states outside of Karnataka and Gujarat.

The HCG Foundation is a unique not-for-profit that raises funds through donations towards helping economically marginalized cancer patients. The Foundation was constituted and registered as a public charitable trust on 4th December 2006 with the goal of improving the quality of life of cancer patients by empowering them to avail the best that medical science can offer.

The Foundation has embarked on a journey of creating its identity by mobilizing funds by organizing interesting events, art shows and optimizing various visibility opportunities to increase awareness, and aiding patients who are on the road to swift recovery.

From the patient's assessment to their activities following treatment, the Foundation strives to be there every step of the way.

As we also believe in prevention before cure, so the Foundation also focuses on prevention and awareness activities related to cancer.

MISSION

- Provide financial support to those who cannot afford cancer treatment.
- Spread awareness about cancer.
- Make early detection services more accessible for rural communities.
- Provide psychological support to the family of cancer patients.
- Educate students on healthy lifestyle habits and cancer prevention.

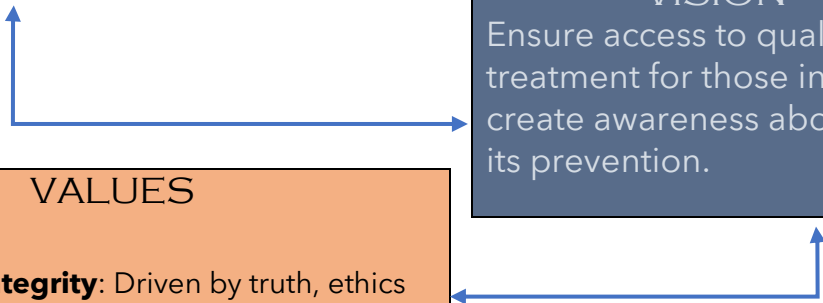

Lasting Inspirations

VISION

Ensure access to quality cancer treatment for those in need and create awareness about cancer and its prevention.

VALUES

- **Integrity:** Driven by truth, ethics and facts
- **Compassion:** Caring for and supporting those touched by cancer
- **Courage:** Undeterred by challenges and bold in action
- **Determination:** Relentlessly pursuing a world without cancer

PATIENT-AID PROGRAM

India has made significant advances in the accessibility of effective and advanced cancer treatment. The Foundation is able to entrust the patients we fund into the care of capable doctors to avail of the correct cancer treatment. We have seen tremendous success in the health of the patients who have approached the Foundation. The core goal of the Foundation is to alleviate the economic burden of bearing the cost of the disease by providing financial aid for quality treatment. The fund is utilized only for general ward patients on a case-by-case basis. Only those patients who show critical economic need and who cannot afford treatment, are helped in this program.

HCG Foundation has helped over 5000 patients since its inception via:

- Concessions in the cost of treatment
- Covering the entire cost of treatment
- Providing medications for free (Drug Support)
- Wellness Support
- Psychological Support
- Provide employment opportunities (affected families).
- Education support

During the 2022-23 year, we helped 101 cancer patients to pay for their treatment.

HOW WE HELP PATIENTS?

DIRECT AID- FUNDRAISING AND DONATIONS

- By providing free or subsidized cancer care to patients who cannot afford treatment.
- The Foundation also aids with treatment to children who are suffering from cancer

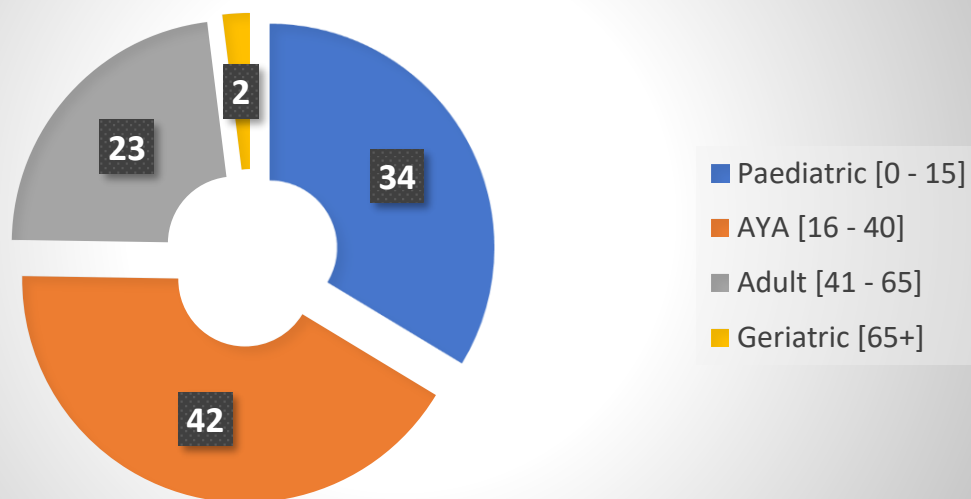

INDIRECT SUPPORT-

- The foundation conducts various activities for the patients to lift their spirits and provide them with a creative outlet.
- It also takes necessary steps for the upkeep, maintenance and welfare of cancer patients and their families.
- Furthermore, it educates and sensitizes the public on the need for empathizing and helping cancer patients and spread awareness about the disease of cancer and its prevention through books, lectures, meetings, seminars, and exhibitions.

DONATIONS: External sources:

- Voluntary contributions from individual donors and agencies, who share our vision for a Cancer free world.
- Donation appeals are sent to agencies and individuals requesting support for our cause.

Age-wise Distribution of Patients

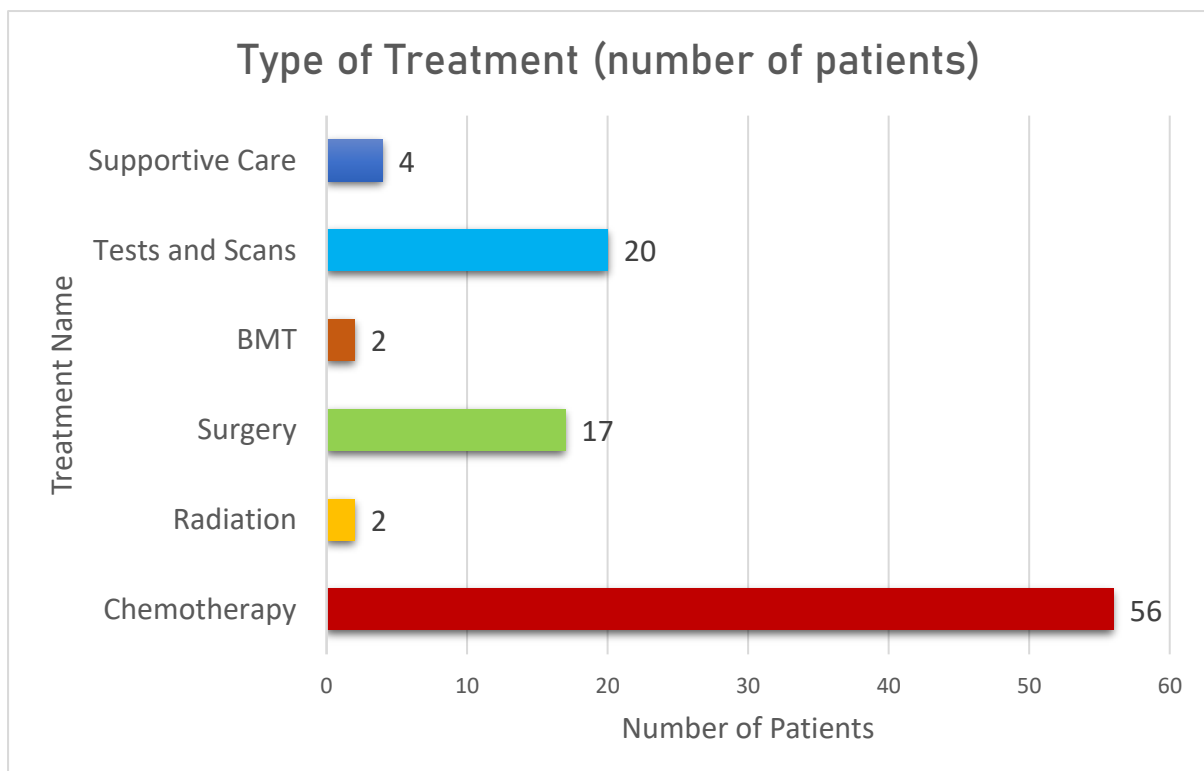

Number of patients assisted (distributed by age)
AYA- adolescents and young adults

Chemotherapy was 55% of the total number of treatments conducted.

BUS AWARENESS CAMPS

Mobile Cancer Awareness Bus deployed in Gulbarga

With the advent of mobile health clinics, rural people now have access to vetted awareness material and cancer prevention and screening. We have conducted over 300 camps and reached over 30,000 participants through our mobile clinic.

The HCG Foundation engages in cancer awareness events regularly. The volunteers and staff of HCG Foundation extend their realm of work and reach out to different populations with the message of Cancer prevention. Participation in various activities to disseminate information on cancer risk factors, importance of cancer screening and early detection of disease is a regular feature.

Aiming at overcoming the hurdle of transportation that comes in the way of medical check-ups, HCG Foundation, in association with Infosys Foundation, launched a mobile cancer clinic in Karnataka in 2014.

Staffed with a doctor, nurse and paramedical staff (around five in all), the clinic is equipped with mammography, x-ray system, ultrasound system, pathology and lab. The mobile cancer clinic is deployed in Gulbarga to cater to districts in north Karnataka. The mobile clinic creates accessibility to advanced cancer screening and early diagnosis. It is a fully sufficient bus with advanced technology which helps in creating awareness by disseminating information about cancer through a television fitted inside the mobile clinic with provision to beam images onto a screen outside.

Using our mobile bus clinic, the furthest mile will be reached and educated on the intricacies of cancer. The goal of the mobile bus clinic is to leverage pre-existing infrastructure in the local communities to continue to educate and diagnosis and detect at the early stage in rural communities.

Childrens Day November 14, 2022

On Children’s Day, November 14, 2022, the HCG Center – K.R Road conducted a unique and fun activity for children afflicted with cancer. Over 20 children of various ages took part in the event. The event conducted was to celebrate the lives of children by providing them with an outlet to display their creative side and enjoy a time of enjoyment with other children affected by cancer.

The MSW’s distributed a coloring book set comprised of color markers and pencils, paint and a book with blank illustrations of Disney characters and animals to be colored. The coloring event lasted approximately an hour. Following this, the nurses displayed their skills by entertaining the children with a dance, which was very well received by all those present.

Following the dance, Dr. Intezar spoke about the meaning of children’s day and the value that children bring to their families and society. Parents interacted with the doctors to express their appreciation for the efforts taken to help their child. They recognized the dedication HCG doctors took to helping the children get better. After the speech, there was a cake cutting session. The children showed great enthusiasm and the parents were left with joy to see their child smile and have a good time.

To leave a lasting impression and memory of this fun event, an interactive photo session was conducted. Finally, the children were given a snack box to be enjoyed at a leisurely pace.

Valentines Day Arts and Craft February 14, 2023

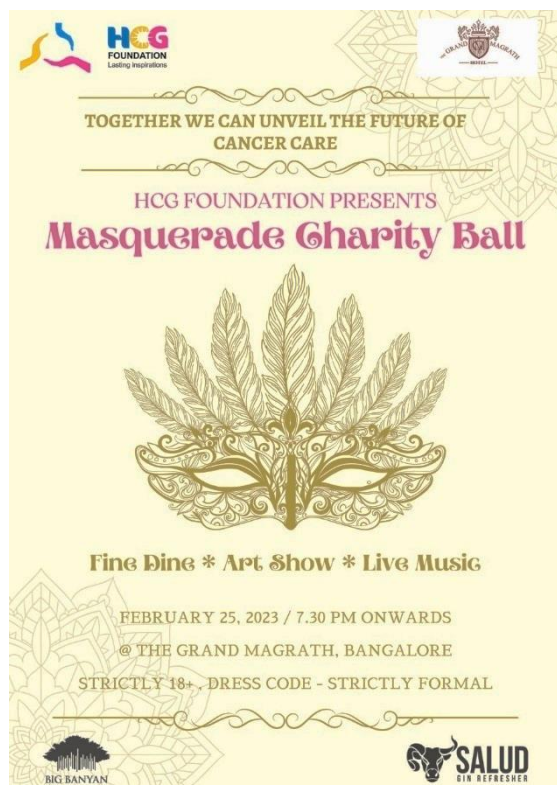

On Valentine's Day, The HCG Foundation organized a fun-filled immersive event for children. The Foundation set up tables in the Swasti Gallery, equipped with a fancy arts package. Bhagya Ajaikumar stencilled out flowers in different colors for the children to incorporate in their artwork. Shrushti, Art Therapist, took the lead in guiding the children to make creative pieces of art. The children, however, were content on drawing and coloring according to their own liking. They enjoyed their quiet time of creative thought, each using different mediums to prepare something to reveal their imaginative minds. Dr. Intezar and Dr. Amit came by to interact with their respective patients. It was a successful event with everyone taking part in bringing joy to the children.

Masquerade Ball

February 25, 2023

In February 2023, The Foundation organized a Masquerade Ball Event to raise funds for cancer patients. We at the foundation know it is of supreme importance to help patients access the correct cancer treatment that is currently on offer. When the Foundation identifies a patient in need, we adopt the patient from diagnosis to recovery. All the funds that the Foundation raises are used transparently and makes a positive change in the lives of the patients. Taking one small step at a time, our focus is on organizing events, such as the Masquerade Ball, to construct a pool of funds which we will use towards helping more cancer patients each month. After all, good health is every human right.

The Masquerade Ball was a busy night of indulging in good food and wine, live music, hours of dancing and interacting

with professionals of varying calibre. Music ranged from mellow-acoustic to modern rock, which got everybody on their feet. Well-dressed professionals from all walks of life shared moments of laughter and friendship. Dr. Ajaikumar kicked off the evening with personal anecdotes, expounding on the background and purpose of HCG and encouraging all those present to take part in supporting the Foundation. The festivities ran well into the night with all enjoying a pleasant Saturday night.

“VARSHA” Art Show

February 25, 2023

The highlight of the Charity Ball was the “Varsha” Art Show. The HCG Foundation displayed exceptional pieces of art and a sculpture. The entire collection was on sale for the sole purpose of raising funds to assist cancer patients pay for the right treatment. The artwork was displayed with spotlights of varying colors and arrayed on the walls inside the venue.

CLOWN THERAPY On-Going

To boost the morale of paediatric cancer patients, the HCG Foundation collaborated with individuals specializing in clown therapy. Two characters, dressed in clown outfits, connected with the children on many levels. They danced, sang songs, mimed, and ensured the children rose to their feet for some fun physical activity. The children enjoyed the show, evident by loud infectious laughter, albeit momentary. The Foundation intends to continue this program on a regular basis at the HCG paediatric ward.

“ODYSSEY” Art Show March 10

The Odyssey Art Show, conducted at Swasti, the Contemporary Art Gallery, was assembled to showcase artistic works created by both experienced and amateur artists. Featured were paintings, pencil sketches, watercolor art, and sculptures. Art Professors and their students were present to explain the artwork. They were presented with a bouquet as a token of the Foundations appreciation. The event was well received, and many mingled for hours to admire the artwork. Snacks and tea were provided to the guests.

CHRISTMAS GIFT CELEBRATION

For the last three years, HCG Foundation, in collaboration with Alvarez & Marsal, have distributed Christmas gifts to our cancer patients across all HCG Hospitals. This year, 96 children received a unique gift from us. It was a joy to see them light up when receiving a thoughtful gift.
